[] What is LegalShield? LegalShield gives you the ability to speak with an attorney on any matter without worrying about paying the typical hourly rate. So instead of paying \$300-\$500/hour for an attorney, you can get access to your attorney for as low as \$29.95/month! The common question we get is “how is this possible?” We have over 4 million members in North America and as a result we are able to pay out over \$100 million/year to our provider law firms. The benefit for us as members is that even though we are only investing \$30/month we are getting access to attorneys who have an average of 22 years of experience. The company has been around for over 50 years, we have an A+ rating with the Better Business Bureau and we have over 5000 attorneys in the national network

[] Who is covered by the membership? Another question we typically get is “who is covered by the membership?” The legal plan covers you, your spouse, and children up to the age of 26. Children with a mental or physical disability are covered for the life of the membership if they are living at home and unable to work.

[] How can I use the service? Ask prospect to write down 1-10

[] How can I get access and how soon can I start using? The membership is month to month. There is no enrollment fee and no cancellation fee. I recommend trying the service for at least a year. Many of our members have had access for 10-20 years and I would never be without the plan

We can go through enrollment right over the phone now. It takes about 3-5 minutes. You can use a debit, credit, checking or savings account to get access to your plan. After we submit it you will get an automatic email within about 24 business hours with the contact information for your law firm, your membership number and instructions for logging into your account.

What did you like most about what we covered?

Did you have any questions or was everything pretty straight forward?

Would you like to start with the comprehensive plan with the IDShield or just the Legal plan?
